

Malicski Luiza Cristina

Junior Web Developer · Linux & Bash

✉ malicski.luiza@yahoo.com · ☎ +40 762 789 964 · 🔗 mkluiza.github.io/curriculum

PROFILE

Background in translation and communication, recently transitioned into the IT field through intensive independent study and mentorship. Over the past 18 months I have developed strong practical skills in Linux, Bash scripting, Regex, and databases, along with hands-on experience building projects with modern full-stack technologies and AI-assisted development workflows. Known for rapid learning, autonomy, and strong analytical problem-solving.

TECHNICAL EXPERIENCE

Developer Trainee under private mentorship

~2024 – 2026

Internal Programming Project · Informal Mentorship

Shadowed and actively collaborated with an experienced developer on a real-world project.

TECHNOLOGIES & SKILLS GAINED

- ▶ **Frontend frameworks:** SvelteKit, Remix, React
- ▶ **Database:** MongoDB (document-oriented, queries, integration)
- ▶ **Cloud & Backend:** Google Firebase (authentication, Firestore, hosting)
- ▶ **UI libraries & styling:** Tailwind CSS, shadcn/ui, Ant Design (antd)
- ▶ **Linux terminal:** navigation, file permissions, common commands
- ▶ **Debian Server:** working on Debian-based server environments
- ▶ **Nginx:** web server configuration and management
- ▶ **Bash scripting:** writing scripts, automating repetitive tasks
- ▶ **Regex:** filtering
- ▶ **Programming mindset:** "less code, more impact" — clean, modular, maintainable code
- ▶ **Good practices:** meaningful naming, rapid testing, code organisation

Web Application & Website Tester

2024 – 2026

Web Applications · Websites

Performed manual testing on web applications and websites, identifying bugs, usability issues, and inconsistencies across browsers and devices. Reported findings and verified fixes in collaboration with developers.

- **Functional testing:** verifying features, forms, navigation, and user flows
- **Cross-browser & responsive testing:** Chrome, Firefox, mobile viewports
- **Bug reporting:** clear and reproducible issue descriptions for developers
- **Regression testing:** re-testing after fixes to confirm resolution

Complete Web Development Bootcamp
400+ modules

Angela Yu · Udemy

- Completed the full curriculum covering web development and databases
- Hands-on projects with a structured and gradual learning path

PROJECTS

Les Samaritains

2024 – Present

Charity Association Website · lessamaritains.fr

Complete website for a French charity organization helping families in need, featuring bilingual content (FR/EN), contact forms, news section, and team presentation.

- **Tech stack:** HTML5, CSS3, JavaScript, PHP (contact forms & email handling)
- **Features:** Responsive design, multi-page architecture, PHP form processing with validation
- **Impact:** Online presence for an association supporting 100+ people with 10 active volunteers

UBCAR

2025 – Present

Religious Union Website · ubcar.ro

Institutional website for the Union of Christian Apostolic Churches in Romania, with editorial content, official documents, and member registration system.

- **Tech stack:** HTML5, CSS3, JavaScript, PHP (forms & backend logic)
- **Features:** Bilingual support (RO/EN), editorial blog system, contact forms, privacy policy pages
- **Content management:** Multiple sections including news, official documents, and community resources

SKILLS & TECHNOLOGIES

Frontend

HTML5 CSS3 Bootstrap JavaScript React

Backend & Databases

Node.js Express.js MongoDB Firebase

DevOps & Tools

Git GitHub Linux terminal Bash Debian Server Nginx

AI & Productivity

AI-assisted development Prompt engineering AI pair-programming

Concepts

RESTful APIs Regex Debugging

Cybersecurity

Currently exploring introductory concepts — learning interest in progress

Soft Skills

Logical thinking · Self-discipline · Perseverance · Attention to detail · Problem-solving

RELEVANT EXPERIENCE

EDUCATION

Judiciary Interpreter
GFTIJ

2024 – 2025

- ▶ Strong analytical and confidentiality skills under pressure — transferable to handling sensitive IT data and client cases

Freelance Language Tutor

2018 – 2026

- ▶ Designed and delivered tailored lessons, improving logical thinking and structured communication — relevant for explaining technical concepts clearly

Master's – Multilingual Translation & Editing
UPEC Paris (MRT)

2022–2024

Bachelor's – Spanish Language & Culture
Sorbonne University (LLCER)

2019–2022

Erasmus+

University of Almería, Spain

2020–2021

Scientific Baccalaureate

Jean Vilar, Meaux — Physics & Chemistry

2018–2019

LANGUAGES

Romanian

Native

French

Native

Spanish

Fluent

English

B2–C1

ADDITIONAL SKILLS & TOOLS

IT TOOLS

VS Code, Google Meet, Zoom, Office Suite, Zotero, Adobe Suite, WordPress, Trados, MultiTerm

CERTIFICATIONS

Health & Safety Risk Prevention (PCR 1 & 2)

FAMILIAR WITH

Data validation, web development (JS, Bash, HTML/CSS)

DRIVER'S LICENSE

Category B

EXTRACURRICULAR ACTIVITIES

Table Tennis — FFTT (France), Federación Española (Spain), CSM Arad (Romania)

Football — Frajti Neuman Arad (2012)

Open to opportunities

Continuous learner · Self-motivated
